Paul Vick architects' particular approach to innovation has been featured in AI magazine. The approach looks at how clients' assets may be improved long and short term and has resulted in a 100% planning permission record as well.

Innovation is not just about new technologies. It is the adding of value to knowledge which has broader possibilities. It is a process that includes discovery, understanding and then use. With today's knowledge and technology, we can do more with less. Paul Vick notes.
